It may be called a 5 Series, but the Gran Turismo is more a versatile version of the BMW 7 Series. This has a lot to do with the 5 GT being based on the 7 Series platform and borrowing a lot of its parts, the result being oodles of luxury to cosset you. BMW kept this in mind when designing the tailgate, which can open as a hatch or like a saloon's boot so those inside the car don't suffer an icy chill. The BMW 5 Series Gran Turismo may seem an unusual mixture of styles and influences, however, they do work when you're inside the car and want masses of space for people and luggage. The limo-like comfort and space in a car capable of dealing with rougher roads as well as the motorways has to be an option worth taking a look at.
